FRED A. FIELD, residence, 101 Center street.

SECOND WARD.

V. C. MEYERHOFFER, residence, 63 East street.

THIRD WARD.

WILL F. LEWIS, residence, 20 Prospect street.

FOURTH WARD.

C. L. LONG, residence, 15 West street.

FIFTH WARD.

J. W. STEARNS, residence, 1 Williams street.

SIXTH WARD.

A. J. DUNTON, residence, 8 Summer street.

SEVENTH WARD.

J. S. CARDER, residence, 53 State street.

EIGHTH WARD.

JOHN BALLARD, residence, 75 South street.

CLERK,

J. B. DONNELLY, residence, 99 River street.

TREASURER,

CHAS. CLARK, residence, 4 Prospect street.

ATTORNEY

H. A. HARMAN, residence, 83 Grove street.

HEALTH OFFICER,

C. S. CAVERLY, M. D., residence, 2 Court street.

AUDITORS,

T. H. BROWN, residence, 14 Cherry street.
W. C. DUNTON, residence, 39 Washington street.
W. H. SPAULDING, residence, 29 South Main street.

COLLECTOR OF TAXES,

JOHN B. MOORE, residence, Strongs avenue.

JUDGE MUNICIPAL COURT,

GEORGE E. LAWRENCE, residence, 37 Washington street.

CLERK MUNICIPAL COURT,

J. C. JONES, residence, 37 Washington street.

STREET COMMISSIONER,

D. J. O'HERNE, residence, 35 South street.

CHIEF OF POLICE,

ROSWELL R. MEAD, office, Village Hall, residence, 2 Maple street.

POLICE OFFICERS,

M. Hussey,	A. T. Woodward,	E. F. Gilmore,
P. J. Flynn,	Edward Kelley,	G. Will Crawford,
O. C. Badger,	J. B. Laporte,	J. W. Brislin,
M. A. Hitchcock,	P. J. Melee,	Will Pratt,

Edward Lorette.

WATER COMMISSIONERS,

Walter C. Landon, residence, 19 Grove street.

Trustees Carder, Meyerhoffer and Lewis.

ON FIRE DEPARTMENT.

Trustees Ballard, Field and Dunton.

ON HEALTH.

Trustees J. W. Stearns, Ballard and Carder.

ON CLOCK.

Trustee J. S. Carder.

TRUSTEES' REPORT.

—:o:—

To the Taxpayers of the Village of Rutland :

In compliance with the requirements of the charter of the village, we submit herewith for your information and consideration, our report for the year ending February 29th, 1888.

In entering upon our duties at the beginning of the year we found the village in bad shape, financially; we were confronted at the outset with old bills running back several years, and amounting to many hundred dollars.

After many consultations over these old bills, your trustees concluded that the better way was to refuse to pay them, and to stop at once and forever this "lapping over" business and looseness in the management of the affairs of the village; believing that the money raised each year should be sufficient to meet all necessary expenses for *that* year.

THE FINANCES

of the village interest the taxpayer most, and we therefore bring them first to your attention. The bonded debt of the village is as follows:

WATER BONDS.

4½ per cent, due August, 1891	$ 5,000 00	
5 per cent, due July, 1893	25,000 00	
5 per cent, due January, 1897	6,000 00	
5 per cent, due January, 1899	13,500 00	
5 per cent, due July, 1899	18,000 00	
		$67,500 00

FUNDED ORDERS.

No. 1537.	4½ per cent, due 1888	$ 2,500 00	
No. 1538.	4½ per cent, due 1889	2,500 00	
No. 1539.	4½ per cent, due 1890	2,500 00	
No. 1540.	4½ per cent, due 1891	2,500 00	
No. 1726.	4½ per cent, due 1892	2,500 00	
No. 1727.	4½ per cent, due 1893	2,500 00	
			$15,000 00
No. 2119.	5 per cent (issued 1888)	$ 2,500 00	
No. 2120.	5 per cent (issued 1888)	2,500 00	
No. 2258.	5 per cent (issued 1888)	1,500 00	6,500 00
	Total		$89,000 00

As instructed by the special village meeting, held December 21st, 1887, your trustees issued December 28th, 1887, two orders for $2,500 each, payable to the order of J. J. Fay, President; also, one for $1,500, March 7th, 1888, for the purpose of funding the outstanding indebtedness of the village, and which orders appear in the list enumerated above.

SUMMARY.

The following summary exhibits the total funds at the disposal of your Board for the past year, and the total disbursements in the several departments, reference being made for details to the general report, in each case, upon subsequent pages.

RECEIPTS.

Balance in hands of Treasurer.....		$693 46
Amount of taxes paid Treasurer.....		31,795 54
A. T. Woodward, collector, tax for 1884,	$3 29	
A. T. Woodward, collector, tax for 1885,	61 50	
A. T. Woodward, collector, tax for 1886,	468 58	
		533 37
J. B. Moore, collector, tax for 1887....		269 64
C. L. Long, licenses for 1887.....		238 00
K. K. Hannum, sale of old material, fire department.....		145 52
George E. Lawrence, Judge municipal court.....		217 44
Stone crusher money.....		2,500 00
Funded order No. 2119, (issued Dec. 28, 1887,).....		2,500 00
Funded order No. 2120, (issued Dec. 28, 1887,).....		2,500 00
Funded order No. 2258, (issued Mar. 7, 1888,).....		1,500 00
V. C. Meyerhoffer, account of sewers...		40 00
L. G. Kingsley.....		10 33
		$42,943 30

EXPENDITURES.

Fire Department, (see page 20,)	$2,684 81
Interest account, (paid by treasurer,)	266 77
Highway account, (see page 19,)	7,694 65
Miscellaneous account, (see page 24,)	2,006 92
Old indebtedness account, (see page 26,)	6,530 96
Police account, (see page 22,)	2,540 85
Refunding account, (see page 26,)	6,498 69
Sewer account, (see page 25,)	4,559 20
Street Light account, (see page 23,)	5,648 00
	$38,430 85
Balance in hands of treasurer	4,512 45
	$42,943 30

OUTSTANDING ORDERS

DRAWN BY THIS BOARD.

Your Trustees were in hopes and have endeavored to have every order drawn by them, presented to the Treasurer, and paid during their term of office, but in spite of everything, we find the following orders outstanding, viz:

No. 2098, L. G. Kingsley	$ 1 11
No. 2261, O. T. Cross	1 00
No. 2262, J. E. Creed	25 00
No. 2244, A. J. Dunton	50 00
	$77 11

TAXES.

Amount of taxes received for the year is as follows:

General	$12,801 31
Highway	7,723 63
Refunding	6,145 98
Sewer	5,124 62
	$31,795 54

ABATEMENT OF TAXES.

We have abated the following taxes.

1885.		
On sewer tax	$ 12 59	
On highway tax	8 39	
On village tax	20 99	
		$ 41 47
1886.		
On highway tax	$ 97 47	
On village tax	48 00	
		145 47
Total		$187 44

INSURANCE.

The insurance upon property owned by the village, and comprising the Village Hall, Municipal Court room, Police Station and Engine houses, situated under the Town Hall building, expired in May last; we reinsured it and give below a statement of the total insurance on village property:

LIVERPOOL, LONDON & GLOBE.

Village interest in Town Hall building	$	5,000 00

PHŒNIX OF NEW YORK.

On same property		5,000 00

NORTHERN OF LONDON.

On Nickwackett house		1,000 00
On engine therein		300 00
On hose and fixtures therein		500 00
One hose cart and apparatus		200 00
Total		$12,000 00

ESTIMATED EXPENSE FOR 1888.

Your Trustees present the following estimates of the necessary expenses for the ensuing year, viz.:

Salaries	$	1,000 00
Police department		2,500 00
Fire department		3,000 00
Street lights		6,000 00
Miscellaneous accounts		1,500 00
Total		$14,000 00

1887.

Grand list	$	56,138 41
Tax assessed for the year		34,857 71

Rate of taxation, $0.62 per $100.

Number of polls (estimated) 1,750.

STREETS.

At the last annual meeting the Trustees were instructed to build a permanent roadway in a section of Merchants Row or Center street. Accordingly specifications were drawn up, bids advertised for, and the work proceeded with. John Ellsworth being the lowest bidder was awarded the contract. The Board decided upon Grove street, from State to Williams, as the best location. It was built after the Telford-McAdam system, and is one of the best sections of roadway in Rutland, although not perfect.

STONE CRUSHER.

At a special meeting held in December last, the Board of Trustees were authorized to purchase a stone crusher and engine, which has been done. The crusher and engine have arrived and are to be located at some convenient point not yet determined upon.

The crusher is of the Gates Iron Works patent, made at Chicago, and the engine (25 horse power) is from the Ames Iron Works of Oswego, N. Y. The cost of the crusher, elevator, screen and engine delivered at Rutland is $2,187.00.

A few of our streets received a top-dressing of gravel, and in many places holes were filled up and the roads put in a passable condition. State, Forest, Union, Strong's avenue, Convent avenue and Woodstock avenue have received the most attention.

STREET LIGHTS.

At the last annual meeting a vote was passed instructing the Trustees to execute a five years contract with the Rutland Electric Light Co., for lighting the streets upon the same terms as had been in force during the previous year. Grave legal questions presented themselves at

the outset, and your Trustees in endeavoring to reach a solution of the question, developed the fact that they were disqualified from executing a legal contract, owing to the fact that a member of the board was a stockholder in the Electric Light Co., section 19 of the Village Ordinances expressly prohibiting the making of such contracts by interested parties. Under the circumstances it was thought best to continue the previous arrangement through the year, acting under the general power of the board, and to leave the final disposition of the matter to such action as the village might see fit to take at the next annual meeting. The Electric Light Co. have continued to light the streets during the year and their monthly bills have been paid at the rate established the previous year. Applications for additional lights were made to the board, but in view of the extraordinary condition of our finances it was deemed inadvisable to increase the expenditures in this direction. The number of lights in use is the same as last year, eight arc lights running all night and every night in the year, and 47 arc lights running until midnight 250 nights in the year.

SIDEWALKS.

A large number of sidewalks have been built and repaired. Concrete has been used on Prospect, Main, Center and Merchants Row. The marble walk on the north side of Center street was relaid, and in many places new slabs put in. A brick sidewalk on Wales street was built to the south line of C. L. Long's brick building, and the marble curbing continued to Washington street. Several cross-walks in different parts of the village have been built and others relaid.

SEWERS.

Nearly two miles of sewers have been laid the past year, all joints being thoroughly cemented. In many places, where quicksand was found, plank was used to support the pipe.

Through the liberality of A. C. Bates and O. J. Cain, the North Main street sewer was connected to one built by them on Crescent street last year, Mr. Hugh H. Baxter forbidding the village from emptying the sewerage on to his property from Main street. Messrs. Bates and Cain have built a cross-sewer from Crescent street to Baxter's north line. From that point to Garden street there is no sewer, and one should be put down the coming year to connect at Garden street.

A great deal of complaint has been made about the sewage that empties into Moon's brook near the Scale Works.

The following sewers have been built and relaid the past year:

Hopkins street, from Main to Strongs avenue, 480 feet, Akron pipe, 8 inch.

East street, from Washington to Jackson avenue, 230 feet, 10 inch; 1440 feet, 8 inch; 108 feet, 6 inch; total, 1778 feet, Akron pipe.

Main street, from Garden to Crescent, 1150 feet, 8 inch; 276 feet, 6 inch; total, 1426 feet, Akron pipe.

Meadow street, from West street to a branch built 250 feet north of main sewer, 740 feet, 8 inch; 15 feet, 4 inch; total, 755 feet, cement pipe.

State street, from Baxter to Pine street, 324 feet, 12 inch; 530 feet, 10 inch; 85 feet, 8 inch; total, 939 feet, cement pipe.

South street, from Meadow to Granger street, 854 feet, 8 inch; 528 feet, 6 inch; total, 1382 feet, Akron pipe.

Granger street, from South street to John Huffmire's residence, 472 feet, 8 inch, Akron pipe.

Lincoln avenue and Williams street, 506 feet, 8 inch; 226 feet, 10 inch; total, 732 feet, cement pipe.

Chestnut avenue, from Garden to Williams street and from Chestnut avenue to Church street, 258 feet, 10 inch; 370 feet, 8 inch; 35 feet, 6 inch; total, 663 feet, cement pipe.

Green street, from Main to East street, 14 feet of 12 inch for cross-sewer; 690 feet, 8 inch; 78 feet, 6 inch; total, 782 feet, Akron pipe.

Sewer under Quinn's and Richardson's livery stables, 72 feet, 12 inch, Akron pipe—relaid.

Repairing sewer on Forest street, 350 feet, 8 inch pipe—relaid.

Two traps were put into the main sewer, one on West street west of Mansfield & Stimson's foundry, and the other on Cherry street sewer, west side of Forest street. In both cases they are reported satisfactory, as the sewer gas is stopped from passing up to Merchants Row or up Cherry street sewer.

The sewers, with but one exception, were built under the supervision of D. J. O'Herne, street commissioner, assisted by Geo. W. Ross, civil engineer.

Trap wells were built on the following streets: Two on Meadow, two on State, four on Main, four on East, one on Green, two on Brown, one on the southwest corner of Wales and Center, one on Chestnut avenue. On Hopkins and Church streets four wells (not trapped) have been built.

By reference to the call it will be seen that other sewers should be constructed the coming year.

TOWN CLOCK.

When the present board came into office the town clock was found to be very much out of repair, and the committee on town clock was instructed to have it repaired, which was done as soon as a competent person could be found. As we have heard no fault found since, we have reason to believe that the clock now gives general satisfaction.

FIRE DEPARTMENT.

The fire department is better equipped at the present time than it has ever been, although the Killington Steamer Co. has resigned from the department, but its efficiency has not been impaired, for since their resignation the Reynolds Hose Co. has been admitted, which company proposes to furnish a fire extinguisher, which will be quite a service to the village. During the year we have purchased a hook and ladder truck, at an expense of $765, as was recommended by our predecessors, and 700 feet of the best hose, and we also appropriated $250 to assist the Hanrahan Hose Co. to purchase their new uniforms. We have also purchased six fire alarm gongs for the different hose houses, which makes our present fire alarm system a perfect success. At the last annual village meeting the Trustees were instructed to sell one or both hand engines, and we decided to dispose of the Washington engine No. 2, and have also disposed of the Killington Steamer Co. hose cart.

The cost of maintaining the department for the past year has been $2,682.81, which includes the purchase of the hook and ladder truck, uniforms and fire gongs. The following is an inventory of the department:

1 steam fire engine	$1,500 00
6,500 feet hose, good, at 50c	3,350 00
1 hand engine	350 00
2 hose carts, at $150	300 00
1 hook and ladder truck	765 00
1 set harness	25 00
7 stoves and pipe	70 00
1 furnace in house No. 6	140 00
1 furnace in house No. 5	80 00
7 hydrant gates, at $10	70 00
12 discharge pipes, at $10	120 00
75 spanners, at 25c	18 75
100 feet ¾ hose	6 00
50 hook and ladder uniforms, at $6	300 00

40 No. 1 uniforms, at $6	240 00
36 rubber coats, old	36 00
1 75 ft. extension ladder, old	10 00
7 village maps	7 00
Fire alarm machinery	2,045 00
5½ miles line	825 00
1 set coupling tools	15 00
12 hydrant wrenches, at $1	12 00
400 feet hose, old, at 25c	100 00
1 engine house, No. 1	2,500 00
3 engine rooms—town hall	3,500 00
	$17,384 75

POLICE.

The condition and work of the police department appear from the report of the chief of police in another place. Their faithful services in preserving good order with a smaller force than is usual in other places, deserves commendation.

SANITARY.

The sanitary condition of the village has been greatly improved by the building of new sewers and the able and efficient services of Dr. Caverly, health officer. The village annually expends about three thousand dollars for its fire department for the protection of property and the same for police protection, but less than two hundred dollars, including salary for the health department, which is of more importance than either to every individual of this municipality. Your trustees would recommend that a fund be set apart for the health department subject to the order of the health officer which will relieve him from embarrassment and add greatly to the efficiency of service.

We would recommend that an ordinance be passed by the village requiring owners of premises to connect drain pipes with sewers with a penalty for its enforcement.

CLOSING.

In closing our report we would say, that the action of the village at the special meeting held December 21, 1887, has enabled your Trustees to *wipe out the entire floating debt* of the village up to the end of the fiscal year; and we have paid every bill we know of, and there is sufficient money in the Treasurer's hands to pay all the March bills, and start the new board even with the world.

Respectfully submitted,

JAMES J. FAY, President.

CHAS. CLARK, *Village Treasurer.*

AUDITORS' REPORT.

—:o:—

To the Village of Rutland :—

We the undersigned, Auditors, have examined the accounts of your Trustees, Water Commissioners and Treasurer, and find the charges made in their accounts sustained by vouchers, as required by law, and herewith beg to submit our report.

Liabilities on account of the Water Department are as follows :—

BONDED DEBT.

4½ per cent, due 1891, August	$ 5,000 00
5 per cent, due 1893, July	25,000 00
5 per cent, due 1897, January	6,000 00
5 per cent, due 1899, January	13,500 00
5 per cent, due 1899, July	18,000 00
	$67,500 00

ESTIMATES FOR ENSUING YEAR.

RECEIPTS.

Income from water permits	$17,000 00	
Cash in hands of Commissioners	103 78	
Cash in hands of Treasurer	167 79	
		$17,271 57

DISBURSEMENTS.

Coupons maturing this year	$3,350 00	
Ordinary expenses, estimated	3,000 00	
		$6,350 00
Estimated surplus for this year		$10,921 57

The bonds due in 1891 are already provided for by the surplus of last year, and the bonds due in 1893 will also be met by the water rents as they become due.

We would advise that the accruing surplus be invested in town or village orders as a sinking fund to meet the bonds as they shall become due.

We find that the Water Commissioners have drawn orders for their services during the past year, and as shown in their detailed report, as follows :—

N. L. Davis	$ 50 00
W. C. Landon	450 00
J. M. Davis	900 00

The latter Commissioner, we understand, devotes his entire time to the care of the Water Department.

The other liabilities of the village are as follows :—

FUNDED ORDERS.

No.			
1537	4½ per cent, due 1888	$2,500 00	
1538	" " " 1889	2,500 00	
1539	" " " 1890	2,500 00	
1540	" " " 1891	2,500 00	
1726	" " " 1892	2,500 00	
1727	" " " 1893	2,500 90	
2114	5 per cent, pleasure of village	2,500 00	
2120	" " "	2,500 00	
2258	" " "	1,500 00	
			$21,500 00

TO BE PROVIDED FOR THIS YEAR.

Order No. 1537	$2,500 00	
" " 2258	1,500 00	
Interest on $20,000 funded debt	925 00	
Outstanding orders	173 00	
		$5,098 00

ASSETS,

Due from A. T. Woodward, tax bill, 1885	$ 56 26	
" " " 1886	174 42	
Due from J. B. Moore, tax bill, 1887	1,019 02	
Licenses, estimated	251 00	
Cash in hands of Treasurer, as follows :		
General account	1,122 69	
Highway account	2,991 94	
Refunded indebtedness	52 07	
Old indebtedness account	338 59	
		$6,005 99
Above taxes not collectable, estimated		300 00
		$5,705 99

Of the cash on hand, $1,500 is represented by village order No. 2258, issued to pay old indebtedness and held by Treasurer without interest, but is to be negotiated when the money is needed. $5,000 of the funded orders, Nos. 2119 and 2120, belong to the sinking fund with which to meet water bonds, due 1891.

TRUSTEES' ESTIMATES FOR ENSUING YEAR.

Miscellaneous expenses	$1,500 00	
Police department	2,500 00	
Fire department	3,000 00	
Street lights	6,000 00	
Salaries	1,000 00	
		$14,000 00

UNPAID ORDERS.

No.		
179	$96 00	
2098	1 11	
2224	50 00	
2261	1 00	
2262	25 00	
		$173 11
To be provided for by tax		$16,383 06

This will require a tax of 32 cents on the dollar.

W. H. SPAULDING, }
THOS. H. BROWN, } Auditors.

N. L. DAVIS,
W. C. LANDON,
J. M. DAVIS,
} *Water Commissioners.*

Rutland, March 14, 1888.

REPORT OF JUDGE OF MUNICIPAL COURT.

—:o:—

There have been heard before this court during the year twenty-four cases, wherein fines and costs are payable to the village. Of these seventeen were complaints for breach of the peace, one for petit larceny, three for violation of the law prohibiting lotteries, one for cruelty to animals, one for discharging fire-arms on Sunday, one for loitering around the depot. In two cases a *nolle prosequi* was entered, and in three cases the respondents were discharged upon hearing. In one case the bail was forfeited, and the bail settled with by the prosecution upon payment of the costs.

In the remaining cases the respondents were convicted. Of these three were appealed. In these cases when entered in County Court the fine, if any, goes to the State, and the costs are paid by the State.

The fines and costs payable to the village amount to	$279 36
Costs payable by the village.....	179 10
Balance in favor of the village.....	$100 26

In three cases the mittimi have not yet been returned by the officers, but in these cases the fines and costs are small and will undoubtedly be collected and paid in.

There has been one case for breach of village ordinances in which judgment was rendered for the village to recover a penalty of $10. This was passed to the Supreme Court on exceptions by respondent and there affirmed.

Respectfully,

GEORGE E. LAWRENCE,

Judge Municipal Court.

March 12th, 1888.

CHIEF ENGINEER'S REPORT.

—:o:—

The undersigned, Chief Engineer of the fire department of the village of Rutland, agreeably to the provisions of section 4 of "An Ordinance Establishing a Fire Department," herewith submits his annual report of the property belonging to the department, the condition thereof, the losses by fire and causes thereof, the insurance thereon, "so far as may be ascertained," etc., as required by said ordinance.

FIRES.

During the past year the department has been called to and rendered services at fires as follows:

1887.

April 8, 1:45 a. m. Alarm, box 47, wood annex in the rear of Bates House, property of E. H. Ripley, occupied by Bardy & Babbitt as storeroom and adjoining their store; building insured for $500; loss, $319; Bardy & Babbitt's insurance, $12,000; loss, $1,971.26; Quinn & Mead's loss, $109.14; insured; cause, incendiary.

April 8, 12:40 p. m. Alarm, box 16, A. C. Bates' house on Grove street; house slightly damaged: insurance on house and furniture, $3,600; loss, $350; caught from furnace.

April 19, 7:45 p. m. Alarm, box 34, John Martin's barn on Jackson avenue; total loss; insurance, $225; cause, supposed incendiary.

May 3, 8:10 p. m. Alarm, box 34, John Martin's house on Jackson avenue; no loss; cause unknown.

June 30, 6:10 a. m. Alarm, box 47, Putnam & Sawyer's block on Merchants Row; insurance on building, $5,500; loss, $195; caught in store occupied by Miss M. E. Sullivan; stock total loss insurance, $3,500; cause, gas explosion.

July 20, 5 a. m. Alarm, box 26, C. L. Allen's ice house and shed on Main street; damage slight; insurance, $400; loss, $35; cause, boys smoking.

Aug. 19, 1:50 a. m. Alarm, box 47, Richardson Bros'., building, corner of Merchants Row and Grove street; badly damaged; insurance on building, $5,000; loss, $3,300; occupied by several parties; insurance, $2,900; loss, $933. B. W. Marshall's building adjoining, on Grove street, occupied by Bixby & Co.; building insured for $2,500; loss, $150; Bixby & Co. insured for $800; loss, $150; cause, incendiary.

Sept. 16, 10:05 p. m. Alarm, box 42, B. & R. charcoal car; total loss; insurance unknown; caught from engine.

Sept. 24, 2.30 a. m. Alarm, box 14, Edson & Thornton's saw mill on Garden street; total loss; insurance, $650; supposed incendiary.

Oct. 26, 9:15 a. m. Alarm, box 37, carload telegraph poles; no damage.

Oct. 28, 9:50 p. m. Alarm, box 45, Robert Stewart's shed on Center street; no loss; supposed incendiary.

Nov. 18, 1:45 a. m. Alarm, box 34, F. Chaffee's carriage house, barns and sheds, near fair grounds. This was outside the village limits, but the department rendered all possible assistance.

Nov. 28, 8:00 p. m. Alarm, box 32, N. S. Stearns' house and barn on Center street; barn total loss; insured for $200; house badly damaged; house and furniture insured for $4,000; loss, $2,465; cause, incendiary.

Dec. 3, 10:15 p. m. Alarm, box 42, Cramton & Paige's livery stable, in rear of Bardwell House; slightly damaged; insurance on building and contents, $5,000; loss, $2,700; cause, supposed to be incendiary; Geo. Richardson's stable adjoining slightly damaged; loss, $83; insured.

Dec. 11, 10:00 p. m. Alarm, box 14, Levi Premo's house on Crescent street. Outside village limits the department could be of no use.

1888.

Jan. 12, 11:20 p. m. Alarm, box 45, Globe Hotel block on West street, owned by Stephen French; fire caught in store occupied by E. D. Barber & Co. as meat market; insurance, $500; loss, $100; building slightly damaged; insured; cause, broken lamp.

Jan. 13, 7:00 p. m. Alarm, box 37, M. B. Taylor's house on Royce avenue; damage slight; insurance, $2,800; loss, $275. E. A. Savery, a boarder, lost in clothing, etc., $127; insured; cause unknown.

Feb. 26, 7:45 p. m. Alarm, box 26, John Laporte's carriage shop and livery stable on Terrill street; shop badly damaged; insurance, $1,000; loss, $468; loss on carriages, etc., $100; no insurance; cause, incendiary.

Mar. 9, 9:30 p. m. Oil tank in round house of the Central Vt. railroad; damage small. No alarm was sent in over the fire-alarm telegraph.

Your apparatus for extinguishing fires consists of one hand engine, built by Cowing & Co., with hose cart; one second-class steam fire engine, built by the Amoskeag M'fg. Co., with hose cart; one hook and ladder truck, with ladders, hooks, etc.; four hose companies as follows: J. W. Cramton Hose Co. No. 4, H. H. Baxter Hose Co. No. 5, J. A. Sheldon Hose Co. No. 6, J. D. Hanrahan Hose Co. No. 7. All the companies are fully manned and commanded by efficient officers.

The Gamewell fire-alarm system consists of 5½ miles of wire, 15 alarm boxes, 1 bell striker, located in the tower of the Congregational church, 1 indicator, located at the Central Vt. railroad machine shop, 3 engineers' gongs, 6 hose house gongs. The batteries, etc., are located at the Telephone company's central office.

There has been purchased during the past year a new hook and ladder truck of the most approved style and is a credit to your department, also, there has been purchased 700 feet of new hose and 6 fire-alarm gongs for engine houses.

There has been sold the Washington Engine No. 2, the No. 3 hose carriage and the old hook and ladder truck, all of which amounted to $495.52. The payments in part for the 700 feet of hose was made by the sale of Engine No. 2.

You will observe by looking at the list of companies that you have one less company than last year. This was caused by the action of your Trustees in cutting down the salaries of the companies numbers 1, 2 and 3. The latter company claimed that they could not live on the amount given them, and therefore withdrew from the department.

The J. B. Reynolds Hose Co. have been admitted to the department by a vote of the village, but as yet have not procured any apparatus, and therefore are not considered active members, but expect soon to be fully equipped.

The custody of the steam fire engine has been given to the Washington Hose Co. No. 2. The pay of the several companies is certainly too small,

and with their present allowance it is impossible for them to pay running expenses. I would recommend that the salaries of each company be raised to a reasonable amount, and an appropriation should be voted at the annual meeting for the fire department.

I think, in regard to the sale of the Nickwackett engine or her removal to any other part of the village, would be very unwise. We have not a hose house in a better location, neither where there is so much valuable property as in that vicinity, and if it were not for some of the school Trustees no one would ever think of such a thing as changing the location.

Your apparatus is in the best of shape, with a good supply of hose of the very best quality. New flues for the steamer are needed, as the old ones have leaked badly all winter.

The fire-alarm telegraph is working in a very satisfactory manner. I would recommend the purchase of a new alarm box, to be located at the corner of Cottage and West streets, and also some few additions and changes in the lines at an expense of not more than $500. This would make the system complete and it would be a number of years before any addition need be made.

The J. D. Hanrahan Hose Co. No. 7 have recently occupied the room, formerly No. 3, their reason for changing was that their house was unfit for drying and preserving hose, and as soon as their former house is put in proper condition they will return.

The companies are all well uniformed except the J. A. Sheldon Hose Co. No. 6, and the village ought to assist them in purchasing some new ones.

I herewith present a statement of the village property in charge of each company, the location of hydrants, also the location of the fire-alarm boxes and keyes thereto, and a list of officers and members of each company.

CONCLUSION.

My acknowledgements are due the officers and members of this department for the prompt and efficient manner in their performance of all their duties.

Respectfully,

K. K. HANNUM,

Chief Engineer Fire Department.

Rutland, Vt., March 10, 1888.

Officers of the Fire Department.

RUTLAND FIRE DEPARTMENT.

RUNNING CARD.

Companies will answer calls from boxes as follows:

No. 1..23—26—32—34—42—45—47—53.
No. 2..14—15—18—19—37—42—45—47—53—61.
No. 3..42—45—47.
No. 4..14—16—18—19—37—42—45—47—53—61.
No. 5..14—15—16—18—19—42—45—47—53.
No. 6..23—26—32—34—42—45—47.
No. 7..19—37—42—45—47—53—61.

Hook & Ladder Company will answer all calls.

GENERAL ALARM.

The General Alarm will be ten blows given on the Bell in quick succession, followed by repeating the Box Call, the same to be given by the Whistle. When this alarm is given, the WHOLE DEPARTMENT will respond.

RELEASE SIGNAL.

After an alarm, three blows on the Bell followed by three blasts of the Whistle, will indicate that the fire is out or under control, and no more assistance will be needed.

When an alarm is given, all the members of the different companies will go to their houses the same as if their box was called, and there wait until the release signal is given.

—:o:—

RUTLAND FIRE ALARM.

LOCATION OF BOXES AND KEYS.

REPORT OF THE CHIEF OF POLICE.

—:o:—

To the President and Board of Trustees:

As instructed by you, I herewith present the annual report of the Police department.

Your police force now consists of 18 commissioned officers. Of this number 14 are special policemen, leaving only four officers on regular duty, three at night and one during the day. This is a very small number of officers for a town of the size of Rutland. In fact, from a large number of reports examined, I find none with so small a number in proportion to its population. Yet, I believe Rutland has an excellent reputation for good order and safety of both person and property on all occasions, which your police officers should and no doubt will do their utmost to maintain. In regard to suggestions for the improvement of this department, I trust that if we are to continue to have a village form of government, our charter may be so amended that the by-laws and ordinances can be promptly enforced. The present method is so slow that many of our ordinances which would be of value could they be promptly acted on, are useless.

The present condition of our village lock-up needs a change. The windows can be readily approached and prisoners communicated with from the outside. This is taken advantage of by interested parties, and results in perjury and injustice in police courts, which should be prevented by an additional wall outside protecting the windows. There are other matters which I think would be beneficial to this department, which cannot be mentioned here.

A portion of the duties performed by your police officers during the year are as follows:

ARRESTS.

Intoxication	206
Selling liquor	156
Selling and keeping liquor	237
Furnishing liquor	41
Breach of the peace	57
Obtaining liquor under false pretense	3
Resisting an officer	2
Keeping house of ill-fame	3
Lewdness	3
Adultery	1
Keeping unlicensed dog	1
Larceny	6
Tramps	19
Rape	1
Loitering at railroad station	4
Assault	3
Cruelty to animals	1
Keeping lottery	3
Discharging firearms with malice	1
Sabbath breaking	3

Your officers have also delivered 72 notices for the health officer.

Among their other duties have been the capture and care of several insane persons; lodging unfortunate poor; assistance at accidents; disturbances suppressed without arrest; missing children found; business places found open and secured; goods found exposed at night and restored; fire alarms given; stolen property recovered, and almost numberless other calls attended to. While all your officers, I believe, duly appreciate their appointment, a police officer's life is no protracted picnic. The persons in his charge are often dangerous; he must do his duty regardless of weather; and if he does his duty he is an abomination "all along the line," from those asked to "move on" to the parties arrested, who with all their friends and the dealers disclosed on, with one sweeping anathema wish him and all his kind in another and a warmer world. If he fails to do his duty he is sure to be censured by those whose opinion he respects.

R. R. MEAD, *Chief of Police.*

Village Attorney's Report.

—:o:—

VILLAGE OF RUTLAND,
ATTORNEY'S OFFICE, March 8, 1888.

To the Taxpayers of the Village of Rutland:

When I entered on the duties of this office, in April last, there were pending the following actions against the village:

1. S. A. Langmaid vs. the Village.

This was brought to recover for damage alleged to have been caused by the bursting of a sewer at Wales and Willow streets, May 30, 1886. The amount claimed is about $155. The cause has been referred to Hon. E. W. Stoddard, of Brattleboro, but has not been heard. Negotiations are now pending for a settlement of the matter with Mrs. Langmaid's attorney.

2. Philanda M. Wilkins, as administratrix, vs. the Village.

This was brought to recover $10,000 damages for the death of Hosea Wilkins, caused by his driving over the cap of a water box on Green street, thereby being thrown from his buckboard and striking on his head. The cause was referred to Stephen C. Shurtleff, of Montpelier, and has been heard before him. His report fixes the damages at $600, if on the facts reported by him the village is liable at all; and the question of the liability will come up before the County Court at the approaching March term.

Since April last the following suits have been commenced:

1. Village of Rutland vs. Robert Stewart.

This was an action to recover the penalty for disobeying an order of the health officer, with the expense of abating a nuisance on Strong's avenue, near the Moon brook. It involved questions of proper procedure under "Health Ordinances," adopted March 30, 1887, as well as the power of the village to enact such ordinances. Judgment was rendered for the village in the Municipal Court, from which the defendant took exceptions to the Supreme Court. That Court affirmed the judgment with costs. A close jail execution is now in the sheriff's hands. Mr. Stewart has left the State, but he gave bail at the outset of the proceedings.

2. Middleton Goldsmith vs. the Village.

This was a suit in chancery to restrain the village from further maintaining, in front of Dr. Goldsmith's house on Main street, the sewer in its then condition, alleged to be defective. An injunction was at first obtained, without notice to the village. A careful examination of the premises failed to disclose any such condition of the sewer as appeared to warrant an injunction; and a motion was at once made to dissolve it. Before any hearing, however, an adjustment was made, under which Dr. Goldsmith received permission to altar the sewer at his own expense, and the suit was discontinued without costs.

3. Robert Stewart vs. the Village.

This was brought to recover damages for an injury alleged to have been committed by the village in building a sewer across the plaintiff's lands on Strong's avenue, in 1883. The injury complained of is that the village discharged sewage upon his lands and into the Moon brook adjacent.

4. Robert Stewart and wife vs. the Village.

This was brought to recover damages for an injury alleged to have been committed by the village in building a sewer on

the east side of South Main street, in 1886, and by discharging sewage upon the same lands above referred to, and into the Moon brook, adjacent.

These two actions stand for trial at the approaching March Term of the County Court. Negotiations have been had, to some extent, for a settlement of these matters with the attorneys for the Stewarts.

Quite a number of "Trustee suits" have been brought, but no matters of special importance have been developed therefrom.

The general welfare of the village, particularly in connection with the Electric Light and in relation to numerous claims which have been made during the year upon the village treasury, has called for a considerable amount of legal investigation; but the subjects come more properly under the trustees' charge, and will doubtless be referred to in their report.

H. A. HARMAN,

Village Attorney.

REPORT OF THE HEALTH OFFICER.

—:o:—

To the Honorable Board of Trustees of the Village of Rutland:

I hereby submit my annual report. The work devolving upon the first occupant of this office has not been small in amount, and the matter of deciding how rigidly the new health ordinances should be enforced has been in some cases a matter of considerable delicacy. There are those who would have had the health officer execute the law to the letter and bring delinquents into court regardless of consequences, while the great majority were ignorant of the provisions of the new ordinances and unused to being forced to observe common sanitary laws. In attending to complaints of nuisances, I have endeavored to secure their abatement in all cases without recourse to legal measures, and have been nearly uniformly successful. As the community comes to understand that there is such an officer and to know the law under which he acts, the health officer will be justified in proceeding in a more peremptory manner with delinquents.

The number of complaints made of nuisances has been large, but I have endeavored to examine each one and secure its abatement, if it proved on examination to be a nuisance. The number of places examined on the various streets is as follows:

Street.	No. of Places Examined.	Street.	No. of Places Examined.
West	25	Summer	2
Center	17	Meadow	2
Granger	13	Spruce	2
So. Main	12	Evelyn	2
Merchants Row	10	School	2
Wales	10	Jackson Ave	2
Elm	13	East	2
Green	9	Edson	1
State	8	Hopkins	1
Washington	6	Howe	1
Grove	6	Fifth Ave	1
Maple	5	Cottage	1
Strong's Ave	4	Union	1
Forest	4	Royce	1
Willow	3	Court	1
Pine	3	Nichols	1
Mineral	3	South	1
Cherry	3	Woodstock Ave	1
Grant Ave	3	Williams	1
Baxter	3		
Franklin	3	Whole number	189

The nuisances abated may be classified as follows, according to their nature:

Filthy privies	68
Defective drains	59
Garbage and refuse heaps	43
Pig pens	18
Manure heaps and barn-yards	17
Hen yards	4
Defective sewers	4
Dead animals	3
Open ditches	3
Gas escaping into houses	7
Dog pen	1
Whole number	227

Much of the work of next year's health officer will be to attend to many of these same places, but some will be led to keep their premises clean if they know the health officer has his eye on them and has authority to enforce sanitary measures. Many new places will doubtless develop too, as the population grows in area and density. But the places now most in need of attention will be found by reference to the books of this office, from which the above tables are compiled.

There are very few houses or premises in the village which are entirely above criticism, from a sanitary point of view, but all a health officer can hope to do is to attend to those that are most palpably injurious to health.

For instance, there ought not to be an earth-closet in the village, but they will probably remain, as a necessity, where there are no sewers and as an unhealthy luxury elsewhere, until made to go by law. It is work enough for one health officer to keep track of these places and see that they are kept clean.

If people will have them, they should clean them *every week* from May 1 to November 1, and throw dry earth, coal ashes or lime into the vault *every day*. Another prolific source of sickness are sink-drains and leaky, imperfect waste-pipes.

With but very few exceptions, untrapped sinks, leaking waste-pipes or slop-water thrown on the surface of the ground was found wherever diphtheria existed during the past year. Those who keep informed in sanitary matters will voluntarily keep their sinks and privies clean, even if there is any doubt in their minds about these causing diphtheria: While those who sleepily ascribe the disease to the "state of the atmosphere," "dispensations of Providence," etc., have no right, and should not be allowed, to endanger the public health because their ideas do not harmonize with generally accepted sanitary laws.

These two nuisances—sink-spouts and privies are the greatest evils, most injurious to health, of all we meet, and people should understand that the health department of this village will wage war on them, until they are either exterminated or properly attended to by owners. Of such nuisances as pig-pens, barnyards and other common causes of complaint, I do not need to speak. They are sufficiently disgusting to eye and nose to make further argument superfluous. These accompaniments of the habitation of man have each its place in the world, but it is not in cities or thickly settled villages. The health and comfort of the people will be in inverse ratio to the number of, and carelessness with which these things are tolerated.

A year ago I called attention to the old Merchants Row sewer. I cannot now improve on my recommendations at that time. This is by far the worst sewer in construction and situation of all I have seen. It is a standing menace to the health of those who are compelled to spend their time in the buildings over it. The gas company has put a trap into it below the railroad that does away for the time with one of its most annoying features, viz., the escape of illuminating gas into these buildings, but other gases must come from it, especially during the winter months, that are fully as unhealthy though incapable of being smelt.

Merchants Row and Center street should have modern sewers IN THE STREETS, and this old walled-up watercourse should be abandoned.

Good progress was made last year in supplying the village with sewers, and the sewers built were needed, and, as far as I know, well constructed.

There is a sewer opening in a vacant lot south of Jackson avenue that should be continued at least far enough from the streets to prevent the odors from it reaching the houses.

There is another sewer at the foot of Gouger hill that opens in the ditch west of the road. This is a nuisance the village should abate.

The open sewer between Nichols street and Lincoln avenue, near the French Catholic church, should be attended to. Good public sewers are still needed in various streets, notably Grove street, Washington street extension and Granger street.

The disgusting and unhealthy vapors that arise from Moon's brook furnish food for thought. During the past year the Scale Company has removed a dam from the brook that relieves the nuisance somewhat, but still there is danger. The brook, as it now exists, is a large open sewer which, aside from the surface water it carries, contains all the sewerage of the southeastern part of the village. It is the natural outlet for this part and must remain so in the future.

Some permanent plan of improvement should be thought of and adopted.

At least the brook's course can be straightened and its bottom dredged and cleaned, securing sufficient velocity to the current to largely overcome the difficulty.

During the past year complaint was made of the condition of the water closets at the depot.

When approached on the subject the railroad officers complained that they were compelled to keep a public privy; that these rooms were resorted to by all the public loafers and roughs, and the railroad's hospitality was abused. There is a good deal of truth in this complaint of the railroad authorities, and I wish to suggest again, as I did last summer to your board, the propriety of the village providing and maintaining in some central location a public resort of this kind.

The health of the village during the past year has been, I think, very good. The only serious exception was the prevalence of diphtheria early in the winter. It is unnecessary

for me to say much about this disease in general, or this outbreak of it in particular. The public has heard all about it and my course of action is generally understood. I take this occasion to gratefully acknowledge the encouragement and endorsement I received in private and public from the community at large, in my efforts to check the spread of this disease.

Below is a tabulated statement of the infectious diseases reported to this office during the ten months from May 1, '87, to March 1, '88.

The usefulness of the ordinances requiring reports of contagious diseases and vital statistics is obvious, and the efficiency of the law lies largely with physicians. The above tables probably do not represent all the contagious diseases, births, and deaths that have occurred during the past ten months. Yet I think most of the physicians have intended to comply with the law. Failures in the future can only be ascribed to negligence of the public health, since the law is now understood. Typhoid fever prevailed somewhat during August, September and October, and was almost wholly confined to the 2d and 8th wards. Diphtheria was most prevalent and severe in the 2d ward, and of the 17 deaths from this disease 12 occurred in this ward.

The ravages of these two diseases carry a terribly practical lesson to these parts of our village. There are plenty of citizens in the second and eighth wards who keep their own premises clean and healthful. Let them do a little home missionary work, and with the aid of the health department the general sanitary conditions of these wards may be vastly improved. Most of the streets are supplied with good public sewers, but the house-keepers in many places still run their slop-water out upon the surface of the ground and refuse to substitute water-closets for privies. This primitive form of drainage may not breed disease in sparsely settled farming communities, but is very sure to, in thickly populated villages. Some persons, I am told, claim that the diphtheria outbreak in the Second Ward was due to digging up Green street for the purpose of putting in a sewer. Furthermore it is reported that the village government, particularly the street committee, is criticised and censured for thus digging up the street. Nothing can be more unjust. Green street needed a sewer. Its people complained because the village neglected to build one. A sewer was laid. Nearly simultaneously with the laying of

it, diphtheria prevailed on the street and elsewhere. To show the fallacy of ascribing the disease to the laying of the sewer, compare dates and facts. Diphtheria was prevailing in various parts of the village prior to the commencement of this sewer. There were at least four cases in this ward (two cases and one death on Green street) up to Oct. 13. The sewer was not started until the 14th. The street digging began at the east end, while diphtheria appeared first at the west end of the street. Other causes sufficient to account for the disease were everywhere so apparent that it must in all fairness be acknowledged that laying this sewer had nothing whatever to do with the epidemic. Our village should have a plumbing ordinance requiring good connections between all public sewers and buildings abutting on streets where there are such. It should also have an ordinance governing the plumbing of all buildings. No one should be allowed to erect a building until a plan of its plumbing has been approved by a competent engineer. This may look like too radical reform, but it is almost sure to prevent much sickness and many deaths.

Poor plumbing is quite as common as good. Nearly all the so-called tenement houses erected which are connected with the sewers have sinks and bowls with no traps and rarely any ventilation for traps and closets where such exist. Such plumbing as this is worse than the original plan, of throwing sewerage on the surface of the ground outside, where the elements may reach it and partially, at least, disinfect it. It really furnishes vent for the sewers into the houses and rooms where we live. Any man who can afford to own a house to live in or to rent can afford to have the plumbing, be it much or little, free from these common faults, and can afford to connect such a house with a sewer that passes the door.

Such a condition of things, when it becomes general, enhances the value of a home in this village and makes the place more attractive for those who are looking for a place to live.

The sanitary advantages of our village are of as much importance as its religious or educational advantages. Yearly visitations of diphtheria, typhoid fever or other filth diseases detract largely from the attractiveness of a place. We have all the advantages, natural and artificial, of any town, good water, good sewers, good schools, plenty of churches, good air and good scenery.

These diseases should never gain a foothold here. If they do, it will be because the inhabitants invite them by neglecting the fundamental principles of modern sanitary science.

I do not need to cite the examples set by many thrifty cities and villages in the New England states for proof of this idea.

Rutland does not drop behind when business or commercial enterprises are at stake, and I have good reason to believe her people as a whole will sustain and encourage a vigorous administration of the health department.

This department most naturally looks for support to the medical profession, and I am loth to believe that the physicians of Rutland, as a body, would intentionally do anything to impair its efficiency.

Differences may arise in honest minds as to methods; the health officer may err in judgment; his conduct may possibly cause offense or jealousy; but in the general work of improving the healthfulness of our surroundings I am confident the health officer of this village can rely on the help of the medical profession.

In conclusion I can only thank your board for the support you have given me in inaugurating the work of a health department in this village, and the citizens generally for their intelligent aid in my efforts to make this department of the village government efficient and useful.

C. S. CAVERLY, M. D., *Health Officer.*

Annual Village Meeting.

The legal voters of the Village of Rutland are hereby notified that the annual meeting of said Village will be held at the Town Hall, on Washington street, on Wednesday, March 28, 1888, at 2 o'clock p. m., to act on the following business:

1. To elect by ballot the following officers to serve for the ensuing year: A President of the Village, Clerk, Treasurer, Tax Collector, Auditor of Accounts, Chief Engineer, First Assistant Engineer and Second Assistant Engineer of the Fire Department, eight Trustees, one from each ward and also a Water Commissioner in place of N. L. Davis.

2. To hear the reports of the Trustees, Chief Engineer of the Fire Department, Water Commissioners, Treasurer, Auditors, Village Attorney and Street Commissioner.

3. To see if the Village will vote to alter, amend or repeal any of the ordinances, or to make any new ordinances.

4. To see if the Village will vote to sell the Nickwackett Engine House, on Center street, and to surrender the lease of the lot whereon it stands, or to exchange said house for other real estate.

5. To see if the Village will vote to purchase a lot of land on Green street, or elsewhere in that vicinity, to accommodate the Nickwackett Engine Company, or for the use of the Fire Department.

6. To see if the Village will appoint an agent, or agents, to carry out the wishes of the voters in respect to the aforesaid sale, exchange, or purchase, of real estate, for the purposes of the Fire Department, and if so to instruct such agents how to act.

7. To see if the Village will vote to empower the Water Commissioners to trade land with Walter Wood, and if so to appoint an agent to deed the same.

8. To see if the Village will vote to purchase a Steam Road Roller, and borrow the money for the purchase of the same.

9. To see if the Village will vote to instruct the Trustees to place curb stones in every street in the Village, thereby establishing permanently street lines and grades.

10. To see if the Village will vote to change the names of Merchants Row and Strongs avenue to that of Broadway.

11. To see what action, if any, the Village will take relative to contracting with the Rutland Electric Light Co. for lighting the streets of the Village.

12. To see if the Village will rescind the vote passed at a Special Village Meeting, receiving the Reynolds Hose Company into the Fire Department.

13. To see if the Village will vote to appropriate a certain sum of money for the use of the Fire Department.

14. To see if the Village will vote to pay the Auditors for their srvices during the past year, and if so how much?

15. To see if the Village will vote to pay the Clerk an additional compensation for the extra duties imposed on him, by reason of the ordinances adopted at the last annual meeting.

16. To see if the Village will vote to sell the Nickwackett Engine.

17. To see if the Village will vote to instruct the Board of Trustees to build the following sewers:

(a) On Washington street, from East line of land of E. D. Page, East to Washington street, cross sewer. (b) On Green street from West line of land owned by Mrs. Riley, to Moon Brook. (c) On Jackson avenue, from East street to terminus of Jackson avenue. (d) On South Main street, from Jackson avenue to Moon Brook. (e) Sewer from Garden street to North line of village. (f) On North Grove street, from No 81 to Tenney Brook. (g) On Robbins street (h) Spruce street, from South street to Village limits. (i) On Granger street, from River street North to connect with main sewer. (j) On Granger street, from the residence of John Huffmire, South to the Village limits. (k) On Brown street, from River street to Franklin street. (l) On South street, from Meadow street to Otter Creek. (m) On Forest street, from Convent avenue to Cherry street sewer.

18. To see if the Village will vote a tax to pay the debts and current expenses of the Village for the year ensuing.

19. To see if the Village will vote a special tax for sewer purposes.

20. To see if the Village will vote to adopt the method of collecting taxes provided in Act No. 90 enacted by the General Assembly of Vermont, December 23, 1880.

21. To transact any other necessary business.

JOHN B. DONNELLY, CLERK.

Polls will be open from 2 until 5 p. m.

Village Clerk's Office, March 16, 1888.
